1. [redacted]
2. [redacted] Soviet chemical engineers [redacted] in Riga were very capable of doing very fine work if they wanted to do it. [redacted] the Soviet chemical engineers received a very thorough training which took from six to seven years. [redacted] the technical universities in Moscow and Leningrad have a high standard of teaching and [redacted] the Soviet chemical engineer [redacted] at the University of Latvia were just as competent as most US chemical engineers that [redacted]

3. [redacted] Soviet chemical engineers should be taken seriously and that it will be dangerous to the safety of the US if they are not taken seriously.
4. [redacted]
